

IS IT POSSIBLE TO **PREVENT** STILLBIRTH

Join us as we explore new research about opportunities to reduce the rate of stillbirth in the United States.

APPROACHES TO REDUCING STILLBIRTH: MATERNAL SLEEP POSITION

OBJECTIVES

At the conclusion of the workshop, participants will be able to:

- Discuss stillbirth risk factors and approaches to reducing risk of stillbirth
- Describe physiologic changes with supine sleep position in the third trimester of pregnancy
- Initiate discussions with expectant families regarding stillbirth risk factors and maternal sleep position

Faculty: Lindsey Wimmer, RN, MSN, PHN, CPNP, CPLC

Participants will be invited to complete pre/post surveys. Those who do will receive one hour of ACCME, ANCC, or Social Work continuing education credit.
